<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether residents are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house residents, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	2
<p>Number of resident housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house residents of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	39

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Hope Center is a 501c3 non-profit agency that operates facility The Hope Center for Men, which is a 130-bed community confinement facility (halfway house)/Alcohol/drug rehabilitation center for adult men and located at 250 West Loudon Avenue, Lexington, KY 40508. The Hope Center for Men has a Kentucky Department of Corrections (KY DOC) contract. The Hope Center for Men's mission: "is to care for homeless and at-risk persons by providing life-sustaining and life-rebuilding services that are comprehensive and address underlying causes". The Hope Center for Men promotes recovery for the individual, family, and community. The Kentucky Department of Corrections (KY DOC) mission is "to protect the citizens of the Commonwealth of Kentucky and to provide a safe, secure and humane environment for staff and offenders in carrying out the mandates of the legislative and judicial processes; and, to provide opportunities for offenders to acquire skills which facilitate non-criminal behavior". The Contract Management Branch of the Kentucky Department of Corrections (KY DOC) is responsible for overseeing community services centers (halfway houses) that house state probationers, inmates and parolees, inmates/residents who are classified as community custody and are near their parole eligibility dates are placed in halfway houses. This integration program allows inmates/residents to become reacquainted with their families and the community and give them a head start in seeking employment, enrolling in vocational schools and/or college programs, and have access to community substance abuse, medical, and mental health care/treatment. The Kentucky Department of Corrections (KY DOC) agency policy in compliance with Section 115.22 of Prison Rape Elimination Act (PREA) Standards date filed 12/10/2013 and effective 2/3/2014. This date the facility housed 80 state inmates/residents. The Hope Center for Men has a Kentucky Department of Corrections (KY DOC) audit twice a year. The other residents of The Hope Center for Men are from a number of referral sources including but not limited to local county judges and/or courts, Casey's Law (which allows the parents, relatives, or friends of an addicted person to lawfully intervene and request involuntary, court-ordered addiction treatment for their addicted loved one), Kentucky Department of Community Based Services (DCBS), mental health agencies, Kentucky Department of Public Advocacy, the Kentucky Housing Development, and some are self-referred/volunteer. The Hope Center for Men utilizes a Recovery Kentucky Model (a long-term social model of recovery), an initiative to help Kentuckians recover from substance abuse and prevent chronic homelessness by offering long-term care housing centers and integrates a peer-to-peer self-help recovery system with the Twelve Steps of Alcoholics Anonymous and other classes. The mission of Recovery Kentucky "is to provide hope to the homeless and those in fear of homelessness, who are suffering from alcohol and drug addiction by using a program that integrates a peer-to-peer self-help model". The average length of stay is approximately 192 days. The Hope Center for Men facility currently employs 25 staff and has 11 volunteers and 5 contractors (including PREA Auditor) that may have contact with the residents. All residents are subject to random urine drug screens throughout their stay. Residents transition through levels of care/different phases based on specific goals and objectives. The Hope Center for Men focus on recovery through the Twelve Steps, emphasis accountability, and work towards addressing behaviors including personal boundary behaviors that does include PREA education and orientation.

The PREA on-site audit was the second PREA audit for The Hope Center for Men (PREA Audit Final Report dated 7/3/2016) and was conducted by DOJ Certified PREA Auditor, Tina Sallee. During the pre-audit phase, the auditor reviewed a variety of documents provided by the facility. These documents included but were not limited to agency and facility policies and procedures demonstrating compliance with the PREA Community Confinement Standards, staffing plan, floor plans, protocols, training records for staff/volunteers/contractors, training records for residents, and other documents related to demonstrating compliance with the PREA Community Confinement Standards. This auditor did not receive any correspondence or requests from residents or staff prior to the on-site audit (a notice was posted with contact information for the PREA Auditor/audit date six weeks prior to the on-site audit as required). An entrance meeting was held with Chuck Gilliam, Men's Recovery Services Manager/Agency-Wide PREA Coordinator/Facility PREA Compliance Manager. The on-site audit schedule of activities was discussed including clarification of documentation that were generated by pre-audit phase for both; samples of residents and staff that were required to be interviewed by PREA Auditor were selected; and specialized staff required to be interviewed by PREA Auditor were identified (using resident roster and staff schedule). All areas required to be viewed by the PREA Auditor during the on-site audit were discussed. Also, additional pre-audit information regarding facility PREA Community Confinement Standards compliance. All areas of the facility were viewed by auditor including administration area, front office, dining area/kitchen, 39 multiple occupancy rooms and restrooms, classrooms/meeting rooms, conference room, inside and outside of building. PREA related informational posters were prominently posted and the PREA audit notice was also observed posted in the facility. Additionally, informational pamphlets regarding PREA and crisis services are given out during the intake/PREA education/orientation for each resident immediately upon arrival at the facility; and PREA information posters/contact information are posted for both resident and staff access. No SAFE or SANE staff are employed at this facility; however, these professionals are provided at University of Kentucky Emergency Department where forensic examinations would be conducted at no cost to the resident and/or to their family.

Interviews were conducted with Chuck Gilliam, Men's Recovery Services Manager/Agency-Wide PREA Coordinator/Facility PREA Compliance Manager (also interviewed as a designee for Agency Head, as a member of the Incident Review Team, as a trained PREA Investigative Staff, a designated staff member charged with monitoring retaliation and/or grievances, as the staff for monitoring volunteer/contractors PREA education/training); Emily Lange, Social Worker (also interviewed as a random sample of staff regarding PREA training, as a staff trained as a First Responder, as a member of the Incident Review Team, as staff that conducts intake process which includes orientation of program/education regarding PREA of all residents immediately upon intake, as staff that performs screening for Risk Assessment for Victimization and/or Abusiveness); Resident Monitors (also interviewed as random sample of staff regarding PREA training, as staff trained as a First Responder, as staff that conducts intake process which includes orientation of program/education regarding PREA of all residents immediately upon intake, and as facility staff responsible for conducting and documenting unannounced rounds); and male residents. There were no residents to interview that had made a report of a sexual harassment/abuse nature. There was one (1) resident to interview that identified as being gay/bisexual; there were no transgender or intersex residents to interview; there were no LEP residents to interview; and there were no residents to interview that identified as being disabled.

During the past 12 months, there have been four (4) administrative investigations (resident-resident sexual harassment) that were determined to be as follows: three (3) "unsubstantiated" and one (1) "substantiated". Documentation and staff interviews confirmed that these reports (as all reports must be) were thoroughly investigated; consequences were determined including but not limited to release/termination of placement of residents involved (violation of rules). During the past 12 months, there have been zero (0) criminal investigations of sexual harassment and/or sexual abuse. Documentation and staff interviews confirmed that all allegations/reports of sexual harassment and/or sexual abuse be referred immediately for investigation.

The agency with the authority to conduct criminal investigations would be contingent on the supervision of the resident (state residents are referred to Kentucky Department of Corrections (KY DOC) and would include Kentucky State Police and/or Lexington Police Department if/when necessary. Mental health services (from meeting with a victim at the hospital as an advocate and on to provide counseling and support) can be provided locally by Kentucky Association of Sexual Assault Program, Inc. (KASAP) and/or Ampersand Sexual Violence Resource Center (formerly known as Bluegrass Rape Crisis Center) if/when needed. Community mental health services can be provided locally by New Vista (formerly known as Bluegrass.org) if/when necessary.

All residents interviewed were complimentary of their thoughts and feelings regarding immediate intake/orientation to the program, including the PREA education, and the safety and security of this facility. Documentation, staff, and resident interviews confirmed that all residents are assessed to ascertain risk of being sexually victimized and/or abusive and the facility uses this information to keep residents safe. Residents who have experienced trauma, abuse, or victimization and/or request it are provided additional services as needed.

An exit conference was held with Chuck Gilliam, Men's Recovery Services Manager/Agency-Wide PREA Coordinator/Facility PREA Compliance Manager. Documents were timely and complete. Staff and resident interviews occurred efficiently. Overall, the facility was well prepared for the PREA audit and performed well in all areas. After reviewing all pertinent information including but not limited to conducting resident and staff interviews, the auditor found that agency/facility leadership have clearly made PREA compliance a high priority and have devoted a significant amount of time and resources to PREA policy development, training of all staff, volunteers and contractors in the facility, and immediate education upon intake with all resident regarding PREA aspects.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Hope Center for Men facility currently employs 25 staff and has 11 volunteers and 5 contractors (including PREA Auditor) that may have contact with the residents. The facility is housed in two secured

buildings and features 39 multiple occupancy rooms and restrooms (each restroom in each apartment is private with a toilet, shower with curtain, and sink), community kitchen, pantry, dining hall, laundry rooms, meeting rooms/classrooms, administrative offices, conference room, there are outside areas. There are currently eighteen (18) cameras inside this facility (hallways, stairwells, common areas), there are external cameras (external doorways). In addition to the added cameras each administrative office (including front desk) has a video/camera monitor in order to observe who is admitted into the facility and for parking area security. The agency/facility continue having on-going discussions regarding adequate levels of staffing and/or future possibility of utilizing more camera/video monitoring technology in order to continue to protect both resident and staff from sexual harassment/sexual abuse and/or allegations of such.

The PREA audit notice and PREA posters containing PREA information are prominently posted for resident and staff access.

Since the first PREA audit the facility has made no substantial modifications to existing facility (but has added cameras). Documentation and staff interviews confirmed the practice that any expansion or modifications to existing facility has and in future will take into consideration the effect of any modification, expansion, and/or additional video monitoring system and/or other monitoring technology upon the facility's ability to protect residents and staff from sexual harassment/sexual abuse.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.252 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.252 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

- Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.252(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (e)
